

include/server.h

```
graph TD; A[include/server.h] --> B[esd.h]; A --> C[context.h];
```

The diagram illustrates a header file dependency. At the top, a gray box labeled 'include/server.h' has two blue arrows pointing downwards to two white boxes. The left box is labeled 'esd.h' and the right box is labeled 'context.h'. This indicates that 'include/server.h' includes both 'esd.h' and 'context.h'.

esd.h

context.h
